- 6. Take the meat out of the fridge and drain the water into the sink.
- 7. Pour half of the remaining spice rub on one side of the meat and rub it in.
- 8. Put the meat spice rub side down onto the plate of flour.
- 9. Pour the rest of the spice rub on the other side and rub it into the meat.

- 15. Line your serving dish with paper towels to prevent your steak from becoming soggy.
